

enCore® Natural Blend

Cortical and cancellous allograft particulate

Partical Size: **0.25 mm - 1.0mm**

Delivery: **Vial**

0.5 cc	NAT050	(1 per box)
1.0 cc	NAT100	(1 per box)
2.5 cc	NAT250	(1 per box)

Naturally Balanced Composition

- A true blend of **cortical and cancellous bone**
- No artificial adjustment — each batch reflects the donor's natural composition
- Sterilized by low dosage of e-beam irradiation

Biological Advantage

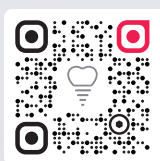

- Mimics native bone structure
- Creates a **more natural healing environment**
- Built-in variability offers advantages:
 - Higher cortical content → greater strength
 - Higher cancellous content → more porosity and faster integration

Ideal Clinical Applications

- Socket grafting
- Ridge preservation
- Procedures needing **versatility and natural bone behavior**

Why Clinicians Choose It

- Prefer versatility and natural biology
- Creates more natural healing environment
